Materials Licensing Section
799 Roosevelt Road
Glen Elyn, IL 60137

Attention: Mr. Mike McCann

RE: Mail Control No. 80878

Dear Sir:

In regard to our telephone conversation on April 1, 1986, enclosed please find the additional information you requested.

We desire to be licensed for the 3400 series Nuclear gauge. Our film Badge supplier will be R.S. Landauer, Jr. and Company. If at any time we change our supplier our new supplier will be NRC Approved.

We will secure the gauge properly when transporting. The gauge will be stored in the vehicle to prevent unauthorized removal. The gauge will never be transported in the passenger area of a vehicle. The gauge will never be left unattended on the job site.

Emergency procedures will be as follows. We will rope off the area (approximately 50' radius) and keep all personal away from area. The gauge will be left on the site and not removed. We will contact the manufacturer and the NRC agency for the implementation of the recovery procedure.

If there are any questions concerning the information, please feel free to contact me.

Sincerely yours,
Ohio-West Virginia Excavating Co.
