Docket No. 50-133

Pacific Gas & Electric Company
ATTN: Frederick T. Searls
Vice President & General Counsel
77 Beale Street
San Francisco, California 94106

Gentlemen:

Amendments to the Commission's regulations (10 CFR 50.59) relating to the manner in which proposed changes in the technical specifications for facility operating licenses are to be requested and acted upon became effective on April 22, 1974. The purpose of this letter is to call this to your attention and point out that all future requests for technical specification changes that you submit must be in the form of an application for a license amendment in accordance with the applicable provisions of Parts 2 and 50 of 10 CFR Chapter I.

Note that Section 50.30(b) of 10 CFR Part 50 requires that applications be executed in three signed originals by the applicant or duly authorized officer thereof under oath or affirmation. In addition to the three signed originals, 37 conformed copies of all portions of those applications requesting technical specification changes for power and test facilities, and 19 conformed copies of all portions of those for research and critical facilities should be filed.

Sincerely,

Karl R. Goller
