Biomedical Diagnostic Services, Ltd.
ATTN: Ram Gunabalan
5339 Kellen Lane
Bloomfield Hills, MI 48013

Gentlemen:

We have reviewed your letters dated November 15, 1985 and January 7, 1986 and find we will need clarification of your program. Since Amendment No. 07 changed Condition 10., it is not clear whether you are operating as a mobile van service or a permanent facility with satellite locations. Please provide us with the following information:

1. For each location on your license state the name of the owner/administrator. If you are not the owner or administratively responsible person, then we will need a letter from the owner or clinic head granting permission for your personnel to provide on-site nuclear medicine services.
2. Please describe the services you provide to each of the sites listed on your license, specifically:
 - a. Are unit doses provided by your base station and delivered by your driver to each site; or
 - b. Are unit doses ordered from a licensed commercial nuclear pharmacy such as Syncor and received at each site.
 - c. Are the iodine-131 capsules received at your base station and delivered to the site of use or does each site order and receive the required dose.
 - d. Please state how long waste material stored at each site and your provisions for waste disposal. Describe the storage and pick-up procedures you utilize.
 - e. Are you still using xenon-133 at any of the locations, and if so, state at which locations xenon-133 is used.

Please provide all the information requested for each location listed on your license so we may better understand your program and thereby issue a license that would cover all your needs.

Does each site have a "hot lab" where radioactive materials may be received and stored.

Please note: if you are not operating as a mobile van, you must follow your receipt procedures and keep records of receipts and surveys for each location listed.

We will continue our review of your application upon receipt of this information. Please reply in duplicate, within 30 days, and refer to Control Number 80208.

Sincerely,
