Lisle, IL 60532-1357

Dear Sir:

This letter is to explain the failure to notify the Director of Nuclear Material Safety and Safeguards within 30 days of the transfer of nuclear source devices from this facility. I inadvertently sent the letter to this regional office rather than to the DC office. Please see attached letter dated January 16, 1996 and the letter from NDC.

A letter has been sent to the Director notifying him of the transfer.

Sincerely,

Sandra A. Bowman
Government Compliance Officer
