October 27, 1997

Mr. Stephen Salomon

This is in response to your e-mail about responding to the Subject above,
i.e SP-97-065.

Please take this message as the Oregon Health Division's response.
Oregon has the authority to withhold pre-decisional NRC information from
public disclosure. This includes draft documents or proposed escalated
enforcement actions as deemed appropriate by the Division. Additional
labeling of documents with "internal agency use" would also be of value.

If this e-mail response is not adequate for being "official", please let me
know.

Thanks,

Ray D. Paris, Manager
Radiation Protection Services
Oregon Health Division
