FRED A. BRINKER  
GENERAL MANAGER  
WESTERN DIVISION

DURANGO, COLORADO

April 13, 1961

L&R:ND

Mr. J. C. Delaney, Chief  
Nuclear Materials Branch  
Division of Licensing and Regulation  
U. S. Atomic Energy Commission  
Washington, D. C.

Subject: License Application for Naturita  
Concentrator, Naturita, Colorado.

Dear Mr. Delaney:

Your letter of March 30, 1961, addressed to Mr. Denton A. Shriver of our New York office regarding licensing for our Naturita Concentrator has been referred to me for an answer.

Construction is started on the Naturita Concentrator and we anticipate completion and the starting of operation sometime between July 1st and August 15, 1961.

Our engineering and designing is not complete for this Concentrator, therefore we cannot answer in detail, at this time, the 13 items as given in your letter of March 30, 1961. However, the engineering and designing should be completed shortly and at that time we will write you giving details and data for the 13 items requested.

Very truly yours,

*Fred A. Brinker*

F. A. Brinker
