Dear Sir:

License No. 48-20315-01

We are in receipt of your letter and notice of Violation dated May 2, 1986.

We are extremely sorry not to have notified you of the termination of our Radiation Protection Officer, Mr. Charles Pearson.

We have now stopped production at this facility so that the radioactive Berthold unit is now no longer in service. We are actively negotiating the removal of this unit by Berthold and will notify you when this is accomplished.

In the meantime the writer Victor Apps, Plant Manager will act as radiation protection officer.

Sincerely,

Peter Cooper Corporations

V. I. Apps
Victor I. Apps
