re: Imaging and Sensing Technology Corporation (IST)
Confirmatory Action Letter
CAL No. 1-97-025

Dear Mr. Brown:

As required by the Confirmatory Action Letter dated September 26, 1997, enclosed is the annual audit for 1997. This audit was performed by our consultant, Thomas McGiff, CHP.

IST will proceed to implement, through the Radiation Safety Committee, those suggestions that we feel are necessary to improve the Radiation Protection Program.

The remaining issues of the Confirmatory Action Letter are essentially completed and will be submitted to you shortly.

Very truly yours,

Thomas M. Mik
Radiation Safety Officer

cc: L. Binetti, IST
