

August 29, 1974

Honorable Dixie Lee Ray, Chairman
Atomic Energy Commission
Washington, D. C. 20545

Dear Chairman Ray:

Governor Reagan has referred your letter of August 8, 1974 to us for further review. We are most appreciative of the detailed information you have provided on the integrity of reactor vessels.

We believe the Atomic Energy Commission should continue to take the necessary steps to assure safe operation under their continuing surveillance responsibilities. In this connection, we would like to be advised of the status of the documented review of San Onofre and Humboldt Bay vessels which was recommended on page 83 of the ACRS Report of January 1974.

Thank you again for the information and assistance you have provided.

Very truly yours,

Vernon L. Sturgeon
President
