Attn: James Mullauer

Dear Mr. Mullauer,

This letter will confirm our telephone conversation of December 13, 1990.

In October, 1990 we physically moved our Perkin Elmer Model #06-02135-12G Gas Chromatograph from 5300 W. County Line Road, Mequon, WI. to 6120 W. Douglas Ave., Milwaukee, WI. The equipment was subsequently assembled, set-up and tested under the supervision of a Perkin Elmer representative on November 12, 1990.

*note this gauge from applies 6120 Mequon, WI to Applied Biom. Milwaukee, WI*

The equipment will now be maintained at this location, including all required testing by Perkin Elmer.

At no time has Applied Biochemists, Inc. handled any radioactive material other than the receptor in the Gas Chromatograph itself.

Your early attention in this matter is appreciated.

Sincerely,  
GREAT LAKES BIOCHEMICAL CO., INC.

John D. Puetz
