Sacramento, California 95814

Dear Joe:

Enclosed for your information is a letter from a California licensee to the State of Illinois. It refers to the transfer of a radioactive source from a facility in Chicago, Illinois to the supplier's plant. Illinois officials advised us that the source is a 100 mCi americium-241 sealed source which, according to their records, had been used in a Filtec gauge, Model FT 12.

Sincerely,

G. Wayne Kerr, Assistant Director
for State Agreements Program
Office of State Programs

Attention: Mr. Verdun Randolph

Dear Mr. Randolph:

On October 1, 1977, you were sent our Quarterly Report for the quarter ending December 31, 1977, showing one (1) radioisotope source(s) having been sent to Bell Chemical Company, 411 North Wolcott, Chicago, Illinois 60622.

Please be advised that this source(s) has been removed from that location and returned to our plant by our service technician. Please change your records accordingly.

Thank You.

Yours very truly,

INDUSTRIAL DYNAMICS CO., LTD.
