SUBJECT: REVISION OF FUNDAMENTAL NUCLEAR MATERIAL CONTROL PLAN
(TAC NO. L30993)

Dear Ms. Elliott:

This refers to your application dated July 31, 1997, requesting a complete revision to your Fundamental Nuclear Material Control (FNMC) Plan under 10 CFR 70.32(c). We have determined that certain changes in your revised plan would decrease the effectiveness of your program. Accordingly, you should re-submit your new FNMC plan in accordance with the provisions of 10 CFR 70.34.

Our review of your revised FNMC Plan and our discussion with you during your drop-by visit at the NRC Headquarters on September 16, 1997, have identified additional information that is needed before we can approve your new FNMC plan. The additional information, specified in the enclosure, should be provided as part of your revised plan within 30 days of the date of this letter. Please refer to the above TAC No. in future correspondence related to this request.

The enclosure contains proprietary information. Under the provisions of 10 CFR 2.790(d), reports containing information related to an applicant's material control and accounting program are exempt from public disclosure. Accordingly, the enclosure will not be placed in our public document room.

If you have any questions, please contact me at (301) 415-8139 or Thomas Pham at (301) 415-8154.

Sincerely,

Michael Lamastra
