

# PURDUE UNIVERSITY

SCHOOL OF NUCLEAR ENGINEERING

December 17, 1998

U.S. Nuclear regulatory Commission  
ATTN: Document Control Desk  
Washington, DC 20555

Docket Number 50-182

Dear Sir or Madam,

Enclosed is a copy of the revised Emergency Plan for the Purdue University Reactor PUR-1. The changes do not decrease the effectiveness of the emergency plan and mostly involved updating the names of organizations on the Purdue University campus, and clarifying the chain of command in the event of an emergency.

The only significant change was to modify the surveillance frequency of security and radiation alarm systems. An explicit frequency was removed and replaced with references to the security plan and the technical specifications as appropriate.

Please feel free to contact me if there any questions.

Sincerely,

Robert Bean

Director, Radiation Laboratories
