Gentlemen:

Subject: Inquiry No. 86-01

This refers to a telephone inquiry by Mr. Thomas Thompson of this office with Gary Morrill of your staff on June 3, 1986. This inquiry concerned activities authorized by License Nos. 29-15062-02 and 29-20659-01, and our intentions to inspect the program.

From this discussion, it is our understanding that licensed activities are now authorized under your reactor operating license and you therefore plan to terminate your license by submitting a letter requesting termination to this office. If our understandings are incorrect, please inform us in writing. Please review License No. 29-15062-02 carefully since it appears that the listed place of use in Condition 10 may not be covered by your operating license.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter will be placed in the Public Document Room. No reply to this letter is required; however, should you have any questions concerning this inquiry, we will be pleased to discuss them with you.

Your cooperation with us is appreciated.

Sincerely,

Original Signed By:
