Subject: STATUS OF SIJ APPLICATION

Brian:

This is a quick note to see if our response was adequate to satisfy your questions. As I mentioned in our phone conversation, we have a requirement to ship product overseas by the end of July. Gyo has contacted Susan Green, however I don't think that they have been able to connect. Do our shipment requirements seem achievable? If there is anything that we can do to insure success please let us know.

Thanks,

Loren L. Leimer

I have some more questions, most of which deal with your response. I need to discuss these with Steve Baggett first though. I will contact you either Tuesday or Wednesday regarding my additional questions.

As for shipping products "overseas," these products do not have to be registered with the NRC. Only those products that will be distributed within the US have to be registered.

It is important that you also apply for an amendment to your E-Distribution license. Get the application in as soon as possible.
