In the Matter of

CAROLINA POWER AND LIGHT CO. et al.
(Shearon Harris Nuclear Power Plant,
Unit 1)

Docket 50-400 OL

ASLBP No. 82-468-01
OL

Dear Judges Kelley, Bright and Carpenter:

Pursuant to the Board's Order on Harassment allegations I have contacted Mr. Guild concerning the secret witness. Mr. Guild informs me that to his knowledge to date (May 31) the witness had been unable to obtain a copy of the OI report on the secret witness' allegations. Based on the witness' experience and dealings with OI, the witness evidently does not believe that the NRC will give fair consideration to the witness' allegations. Also, unless the witness has a copy of the OI report to review, there would be no way to get the witness' consent to use the report under protective order or otherwise, since the witness wants to review the report before giving such clearance. Evidently OI has been using a wrong address for the witness and there have been substantial delays in contacts for that and possibly other reasons.

Thus intervenors are unable to pursue this matter now.

I must add that the Board's conclusion that because no workers came forward, harassment and intimidation does not exist, is no more logically valid as to Harris than the conclusion that if intimidation exists, it is highly effective (so far). My contact with plant workers who do not wish to be identified indicates the latter.
