SUMMARY

Mr Audberg understood that our office was having difficulties locating the construction specs for the radon cover. I explained that ~~the~~ our initial or completeness review had not located the updated cover design (not specs) based on the new data from the proposed borrow. Mr. Audberg indicated that not all the new data ~~and~~ ^{not} the new design had been included in DOE's May submittal. This information will be issued at a later date as an amendment - perhaps during construction.
