Re: FOIA Request

Dear Sir/Madam:

I request under the Freedom of Information Act the following documents:

I. With reference to Pilgrim Nuclear Power Station (PNPS)

1. Any studies correspondence, reports or any other documents relating to the reported problems involving GE Fuel (which leaked and had cracked fuel cladding) 1972 - present.
2. Any accounts, studies, correspondence, reports, data, or other documents relevant to inadequate monitoring of liquid and airborne discharges, 1972 - present.
3. Any accounts, studies, compilations, data or other documents relevant to meteorological information on a) inversion frequency and persistence, b) fumigation frequency and persistence, c) air quality and particulate readings
4. Any accounts, studies, data, correspondence, or other documents relating to the existence of unmonitored gaseous release paths, for the period 1969 - present.
5. Information relevant to modification of plant systems with the intent of reducing radioactive discharges, and to alternation of the plant's Technical Specifications governing radioactive discharges, for the periods 1970 to present.
6. Accounts, studies and data relevant to release to environment of radioactive demineralizer resins from 1970 - present.

II. With respect to Main Yankee at Wiscasset Maine, the same data as in 1-6 paragraphs above.
