SALP INPUT FOR COMPLETED SER

Organization Preparing SALP Input: Region V

Facility: Palo Verde Docket Nos.: 50-528, 50-529 & 50-530

Phase: Operating

SER Subject: Generic Letter 83-28, Items 3.1.1 and 3.1.2

TAC No.: 59165

---

FUNCTIONAL AREA: Licensing Activities

Evaluation Criteria:

1. Management Involvement in Assuring Quality

The licensee's submittal reflected a management program where activities affecting quality were well controlled.

Rating: Category 1

2. Approach to Resolution of Technical Issues from a Safety Standpoint

The licensee's approach in responding to this request appeared to be based solely on the safety considerations involved. No effort to compromise any of the requested actions was identified.

Rating: Category 1

3. Responsiveness to NRC Initiatives

The licensee was fully responsive to the NRC guidance relating to these items of Generic Letter 83-28.

Rating: Category 1

4. Reporting and Analysis of Reportable Events

Not observed

Rating: None

5. Staffing (Including Management)

Not observed

Rating: None

6. Training and Qualification Effectiveness

Based on the quality of the licensee's response to these items, it appears the training and qualifications of the individuals preparing the submittal were good.

Rating: Category 1
