

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

January 30, 1998

MEMORANDUM FOR: James C. McKnight
Document Control Desk
Office of Resources Information Management

FROM: James R. Hall *James R. Hall*
Senior Project Manager
Office of Nuclear Reactor Regulation

SUBJECT: DISTRIBUTION OF COOPER TIA RESPONSE TO THE
PUBLIC DOCUMENT ROOM

The attached Task Interface Agreement (TIA) response regarding the Cooper Nuclear Station was sent from NRR to Region IV on August 14, 1997 (Accession No. 9708180211). I recently learned that, since this response conveys a staff position that applies to several plants, Region II requested that it be put into the Public Document Room so that NRC and licensees could make reference to it. Please take the necessary action to place this document in the PDR.

Thanks for your assistance. Please call me at 415-1336 if you have any questions.

Attachment: August 14, 1997 memorandum from J. Clifford, NRR, to A. Howell, RIV; Subject: Response to Task Interface Agreement (TIA 95-010) - Acceptability of a Single Passive Component to Meet Containment Isolation Requirements (TAC No. M93402)
