Gentlemen:

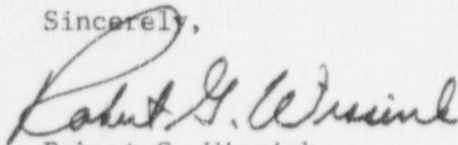

Subject: Registration of nuclear measuring devices

We have received two new nuclear measuring devices, both models 105 manufactured by NDC Systems in Duarte, California, under their State of California General License No. GL-1933-70. These devices are located at 3M's Data Recording Products Plant at 350 South Lewis Road, Camarillo, California. The contact person at the Camarillo plant is R. H. Prust who can be reached at 805/482-1911.

This makes a total of three model 105's located at the Camarillo plant. The first was obtained in 1984, as stated in the letter from M. G. Cobian at 3M to you dated April 24, 1984.

3M's Corporate Radiation Safety program continues to be administrated from Health Physics Services offices in St. Paul, Minnesota. It is therefore requested that any correspondence relative to this registration be conducted with this office. Our telephone number is 612/733-4095.

Sincerely,

Robert G. Wissink
Manager, Health Physics Services
