Gentlemen:

SUBJECT: EXAMINATION REPORT AND PARTIAL REQUALIFICATION PROGRAM EVALUATION  
RESULTS NOS. 50-277/86-04(OL) and 50-278/86-04(OL)

This transmits the Examination Report of Operator Licensing Examinations and the results of a partial Operator License Requalification Program Evaluation conducted by USNRC Region I at the Peach Bottom Atomic Power Station the week of March 10, 1986. At the exit interview held on March 13, 1986, the preliminary results of the Operating Licensing examinations were discussed.

There is one area of concern that warrants your further attention. As detailed in the attached report, a generic weakness was noted, during the oral examinations, among the Senior Reactor Operator candidates in their hesitancy to implement the Peach Bottom Emergency Plan. Although their overall actions met the minimum requirements for protecting the health and safety of the public, it was demonstrated in an untimely or hesitant manner. Increased emphasis should be placed on this subject area during future Senior Reactor Operator License training programs and continued as part of the license requalification program. This concern will be noted and followed up during future License Training Program inspections.

No reply to this letter is required. Your cooperation in this matter is appreciated.

Sincerely,

Original Signed By:
