STOP THE RESTART OF MILLSTONE UNIT #3

To: Dr. Shirley Ann Jackson, Chairperson
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555-0001

NU's frightening mismanagement does not warrant the restart of Millstone Unit #3. I am concerned because of employees' fears of retaliation, pipe breaks, back-up system failures, falsified inspection reports, violation of radiation control regulations, improper repairs, failure of operations on qualification tests and the contamination of the soil, ground water, the air, and also Long Island Sound.

Sincerely,
