DO NOT DISCLOSE

This is in regard to your concerns with respect to the construction of the Comanche Peak Steam Electric Station which were initially raised in the Mechanical/Piping area. In evaluating these concerns, we have determined that more information from you would be helpful to clarify certain technical aspects of your concerns.

It is important that our technical reviewers have an opportunity to talk with you as soon as possible. Please call me or Mr. Richard Wessman collect at either of the following numbers so that we may further discuss your concerns.

(817) 897-3167 (NRC site office)
(301) 492-7014 (Bethesda, Maryland)

Thank you very much for your cooperation.

Sincerely,

Thomas A. Ippolito
