Division of Radiation Safety
and Safeguards
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Sir:

This is to inform your office that one nuclear densitometer manufactured by Kay Ray has been relocated from Consolidation Coal Company's Potomac Mine located in Mt. Storm, West Virginia. The relocation took place on October 8, 1993. Details are listed below:

Densitometer: Manufacturer - Kay Ray; Serial No. 15936; isotope -
Cesium 137; amount - 100 millicuries.

This device is being transported to Kay Ray in Mt. Prospect, Illinois for disposal since we no longer have a need for it.

The above device was removed and relocated in accordance with USNRC and DOT guidelines and regulations. If you need any further information, please contact me at the above telephone number.

Sincerely,

R. O. Scandrol
Group Leader, Mechanical Services
