Assistant Associate Director
Office of Natural and Technological
Hazards Programs

SUBJECT:

Exercise Report of the November 6, 1985, Exercise
of the Offsite Radiological Emergency Preparedness
Plans for the Braidwood Nuclear Power Station

Attached are two copies of the Exercise Report of the November 6, 1985, joint exercise of the offsite radiological emergency preparedness plans for the Braidwood Nuclear Power Station. This was a joint full participation exercise for the State of Illinois and Grundy, Will and Kankakee Counties. The report dated February 4, 1986, was prepared by Region V of the Federal Emergency Management Agency (FEMA).

There were no deficiencies observed at the exercise. There were inadequacies identified requiring corrective actions; however, they did not detract from the overall demonstrated capability to protect the health and safety of the public. The State has submitted a schedule of corrective actions (copies attached) which are adequate to correct the inadequacies identified during the exercise.

If you have any questions, please contact Mr. Robert S. Wilkerson, Chief, Technological Hazards Division, at 646-2860.
