Dear Mrs. Grosclaude:

As promised during my visit to the Sallisaw City Library on June 4-6, 1986, I have enclosed various supplies which I feel may be helpful to you and the library staff in maintaining the files on the Sequoyah Fuels Corporation, Docket 40-8027. You should receive two packages consisting of the following:

Package 1 - Two black file folders with plastic prongs for securing the computer printouts. I suggest also inserting a copy of the "DCS Acronym Translation Page" in the front of each folder.

- Copies of various correspondence for filing.

Package 2 - Stapler, heavy duty with two boxes of staples.

- Punch, 2 hole

- Punch, 3 hole

- Labels, gummed for file folders

- Paper fasteners w/compressor for securing correspondence

- File folders, legal size, expanding

- Reports folders (side opening) for filing thick reports

- Reports folder containing blank copies of a "Correspondence Log for Sequoyah Fuels Corporation" which you may wish to use for future indexing as well as maintaining copies of your present index/log.

- Copies of License dated October 7, 1977 and Amendment No. 1 dated July 7, 1978, which we discovered were missing from your files.

If you need additional supplies or I can be of further assistance, please contact me at (301) 427-4510.

Again, thanks to both you and the Library staff for the voluntary services you provide the Nuclear Regulatory Commission in maintaining the Local Public Document Room files.

Sincerely,

8607090357 860625
