SUBJECT: Arkansas Nuclear One - Unit 1
Docket No. 50-313
License No. DPR-51
Revisions to Emergency Operating Procedure (EOP)
Technical Guidelines for ICC Monitoring System,
NUREG-0737, Item II.F.2

Dear Mr. Stolz:

Our March 18, 1986 letter (1CAN038604) committed to providing revisions to the Abnormal Transient Operating Guidelines (ATOGs). The revisions to the "Backup Cooling" tab of the ATOGs, incorporating the ICC Monitoring System, are given as Attachment 1.

The revisions are submitted for NRC review and approval. Subsequent to NRC approval, revisions to the station EOP and Operating Procedures will be made based on these ATOGs.

Very truly yours,

J. Ted Enos, Manager
Nuclear Engineering and Licensing
