

NOV 21 1985

License No. 44-18388-01  
Docket No. 030-14984  
Control No. 104536

Institute for Medical Research of Bennington  
ATTN: Peter Lalley  
Director  
110 Hospital Drive  
Bennington, Vermont 05201

Gentlemen:

This is in reference to your letter dated October 15, 1985 requesting an amendment to License Number 44-18388-01. We are requesting that you submit a comprehensive application which is complete in itself and without references to previously submitted information, describing your present radiation safety program. This information should include a detailed description of the instruction that will be provided to authorized users, technicians, and ancillary personnel. You should include in this description how you will determine a person's understanding of the training received. We are requesting this information because you, have experienced a complete turnover in personnel (authorized users), have appointed a new radiation safety officer, and have essentially a new program. Enclosed is a copy of Regulatory Guide 10.7 for your consultation.

We will continue our review upon receipt of this information. Please reply in duplicate to my attention at the Region I office and refer to Mail Control No. 104536.

Sincerely,

Original Signed By:  
John E. Glenn

John E. Glenn, Ph.D., Chief  
Nuclear Materials Safety Section B  
Division of Radiation Safety  
and Safeguards
