REGISTRATION OF DEVICES CONTAINING RADIOACTIVE MATERIALS
SUPPLEMENTAL REGISTRATION RENEWAL FORM

(as required by Section 30110-30125, Title 17, California Administrative Code)

Some devices containing radioactive materials are subject to the Registration requirements. Possessors of such devices should complete the lower portion of this form, and return one copy of it to the State Department of Public Health before July 31, 1968.

The only radioactive material required to be reported is that contained in devices designed and manufactured for the purpose of detecting, measuring, gauging, controlling thickness, density, level, interface location, radiation leakage or qualitative or quantitative chemical composition or for producing light or ionized atmosphere, possessed pursuant to a general license under provisions of Article 4, Section 30192 (c) (1) of Group 2 of the Radiation Control Regulations.

Radioactive Materials authorized by a specific radioactive material license need not be registered if possessed by the person or organization named in that license.

There is no fee for the registration of radioactive materials reported on this form.
