

JUL 08 1986

MEMORANDUM FOR: Carl J. Paperiello, Director, Division of Reactor Safety
 THROUGH: William L. Forney, Chief, Reactor Projects Section 1A
 FROM: R. M. Lerch, Projects Inspector, Byron
 SUBJECT: CONSTRUCTION APPRAISAL TEAM (CAT) INSPECTION (50-455/85027)
 FINDINGS FOR BYRON 2

Attached is a memorandum from the Byron Senior Resident Inspector giving the results of his review of the status of CAT findings. Several of the issues raised are still outstanding which will require inspection effort by regional based inspectors from the Division of Reactor Safety (DRS). By this memo, it is requested that the appropriate sections of DRS assume responsibility for closing the CAT issues numbered 1c, 2a, 2b, 2d and 3b. Resolution of these items should be accomplished to support a fuel load as early as November 1986.

If you have any questions, please contact me (Ext. 779).
