WELDED ATTACHMENTS TO EMBEDDED STRIP PLATES  
SDAR: CP-86-44 (INTERIM REPORT)

Dear Mr. Johnson:

On June 5, 1986, we verbally notified your Mr. I. Barnes of a deficiency involving the design/construction requirements for minimum separation of welded attachments to embedded strip plates not being properly reflected in inspection procedures. This is an interim report of a potentially reportable item under the provisions of 10CFR50.55(e).

We are continuing our evaluation and anticipate submitting our next report by August 22, 1986.

Very truly yours,
