

JUL 3 1986

Southern California Edison Company
P. O. Box 800
2244 Walnut Grove Avenue
Rosemead, California 91770

Attention: Mr. K. P. Baskin, Vice President
Nuclear Engineering, Safety and Licensing

Gentlemen:

Subject: Quality Assurance Program Description for San Onofre
Units 1, 2 and 3

By letter dated June 17, 1986, (M. O. Medford for J. B. Martin) the Southern California Edison Company (SCE) submitted Change Notice Number 15 to Topical Report, SCE-1-A "Quality Assurance Program", Amendment 8, dated July 1985, as the current Quality Assurance Program description for San Onofre Nuclear Generating Station Units 1, 2 and 3.

Based on our evaluation of the changes implemented by Change Notice Number 15, we find that the revised topical report continues to meet the criteria of Appendix B to 10 CFR Part 50 and is therefore acceptable for Units 1 and 2 and 3.

Should you have any questions regarding our review or if we can provide assistance, please contact W. J. Wagner at (415) 943-3731.

Sincerely,

151

Dennis F. Kirsch, Director
Division of Reactor Safety and Projects
