IN RESPONSE REFER
TO FOIA-86-36 AND
FOIA-86-A-22

Dear Ms. Garde:

This is in further response to your letter dated January 14, 1986, in which you requested, pursuant to the Freedom of Information Act (FOIA), all records regarding Inspection Report 50-445/85-13 and 50-446/85-09, dated December 24, 1985.

The staff has completed its review of the three records identified by asterisks on Appendix B, which we previously sent to you with our partial response letter dated June 11, 1986. These three records, B/9, B/22, and B/30, are now available for public inspection and copying at the NRC Public Document Room in file folder FOIA-86-36 under your name.

This completes NRC's action on your request. Therefore, we are taking no action on your letter dated March 3, 1986, appealing our lack of response to your request.

Sincerely,

A handwritten signature in cursive script, reading "Donnie H. Grimsley".

Donnie H. Grimsley, Director
Division of Rules and Records
Office of Administration

FREEDOM OF INFORMATION ACT REQUEST

Director
Office of Administration
Nuclear Regulatory Commission
Washington, D.C. 20555

FREEDOM OF INFORMATION
ACT REQUEST

FOIA-86-36
Rec'd 1-17-86

To Whom It May Concern:

Pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. §552, the Government Accountability Project ("GAP") requests copies of any and all agency records and information, including but not limited to notes, letters, memoranda, drafts, minutes, diaries, logs, calendars, tapes, transcripts, summaries, interview reports, procedures, instructions, engineering analyses, drawings, files, graphs, charts, maps, photographs, agreements, handwritten notes, studies, data sheets, notebooks, books, telephone messages, computations, voice recordings, computer runoffs, any other data compilations, interim and/or final reports, status reports, and any and all other records relevant to and/or generated in connection with Inspection Report 50-445/85-13 and 50-446/85-09, December 24, 1985.

This request includes all agency records as defined in 10 C.F.R. §9.3a(b) and the NRC Manual, Appendix 0211, Parts 1.A.2 and A.3 (approved October 8, 1980) whether they currently exist in the NRC official, "working", investigative or other files, or at any other location, including private residences.

If any records as defined in 10 C.F.R. §9.3a(b) and the NRC Manual, supra, and covered by this request have been destroyed and/or removed after this request, please provide all surrounding records, including but not limited to a list of all records which have been or are destroyed and/or removed, a description of the action(s) taken relevant to, generated in connection with, and/or issued in order to implement the action(s).

~~50-445/85-13~~ 4 pp.

GAP requests that fees be waived, because "finding the information can be considered as primarily benefitting the general public," 5 U.S.C. §552(a)(4)(a). GAP is a non-profit, non-partisan public interest organization concerned with honest and open government. Through public outreach, the Project promotes whistleblowers as agents of government accountability. Through its Citizens Clinic, GAP offers assistance to local public interest and citizens groups seeking to ensure the health and safety of their communities. The Citizens Clinic is currently assisting several citizens groups, local governments and intervenors in Texas concerning the Comanche Peak plant.

We are requesting the above information as part of an ongoing monitoring project on the adequacy of the NRC's efforts to protect public safety and health at nuclear power plants.

For any documents or portions that you deny due to a specific FOIA exemption, please provide an index itemizing and describing the documents or portions of documents withheld. The index should provide a detailed justification of your grounds for claiming each exemption, explaining why each exemption is relevant to the document or portion of the document withheld. This index is required under Vaughn v. Rosen (I), 484 F.2d 820 (D.C. Cir. 1973), cert. denied, 415 U.S. 977 (1974).

We look forward to your response to this request within ten days.

Sincerely,

Billie Pirner Garde

Dear Bill:

SUBJECT: Comanche Peak Nuclear Station

Confirming our telephone conversation, it is permissible to bend AMP loose piece terminals such as AMPOWER*, SOLISTRAND*, PIDG*, and PLASTI-GRIP* a maximum of 60° one time in the field.

If terminals are bent more than 60°, they should be reannealed to relieve the stresses which are set up during bending.

For example, when we manufacture and ship a 90° bent terminal, we anneal it after bending prior to plating.

Very truly yours,

Bill Eister

Dear Spud:

Enclosed is a copy of our test report EER-136. This report was generated from the test work done to satisfy your purchase order CPF-22085.

I hope that you find this effort to your satisfaction.

Yours truly,

Floyd H. Renshaw
