NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

JUL 9 1986

Docket Nos. 50-416/417

Mr. Oliver D. Kingsley, Jr.
Vice President, Nuclear Operations
Mississippi Power & Light Company
P. O. Box 23054
Jackson, Mississippi 39205

Dear Mr. Kingsley:

SUBJECT: SALEM ATWS EVENTS, GENERIC LETTER 83-28, POSITION 2.1 (PART 1)
EQUIPMENT CLASSIFICATION

Re: Grand Gulf Nuclear Station, Units 1 and 2

Generic Letter 83-28 (GL 83-28) requested licensees of operating reactors, applicants for operating licenses and holders of construction permits to respond to certain positions resulting from the NRC staff's review of anticipated transient without a scram (ATWS) events at the Salem Nuclear Plant.

By letters dated November 4, 1983, November 19, 1984, and August 26, 1985, Mississippi Power & Light Company (MP&L) provided, among other things, a response to GL 83-28 Position 2.1 "Equipment Classification and Vendor Interface (Reactor Trip System Components)".

The NRC staff has completed its review of the licensee's submittals dated November 4, 1983 and August 26, 1985 regarding MP&L's response to Part 1 of Position 2.1 of GL 83-28. Part 1 of Position 2.1 requires the licensee to confirm that all components whose functioning is required to trip the reactor are identified as safety related on all plant documentation and in information handling systems that are used to control all activities performed on this safety related equipment. The staff's safety evaluation is enclosed. The staff concludes that the licensee's program for identifying, classifying, and treating components required for the reactor trip function as safety related meets the requirements of Generic Letter 83-28, Position 2.1, Part 1 and is therefore acceptable.

P PDR

The NRC staff is continuing its review of the licensee's submittal dated November 19, 1984 regarding MP&L's response to Part 2 of Position 2.1 of GL 83-28. Part 2 of Position 2.1 requires the licensee to establish a program to ensure that vendor information is appropriately incorporated into plant procedures for the components identified in Part 1. The staff's scheduled completion date for Part 2 is December 31, 1986.

Sincerely,

Original Signed by

Lester L. Kintner, Project Manager
