SUBJECT: Arkansas Nuclear One - Units 1 & 2
Docket Nos. 50-313 and 50-368
License Nos. DPR-51 and NPF-6
Senior Nuclear Management Representative

Gentlemen:

In February of 1983, I was named as the Senior Nuclear Management Representative for AP&L. Since that time there have been several organizational changes within AP&L. As a result of these changes, I am now the Senior Vice President, Generation, Transmission and Engineering. In my current position I am responsible for the operation of all AP&L generation facilities as well as all AP&L engineering and transmission activities. In November, 1984, Mr. Gene Campbell assumed my previous position of Vice President, Nuclear Operations. In this capacity, Mr. Campbell has responsibility for all Arkansas Nuclear One activities.

As a result of these organizational changes, I have designated Mr. Campbell as the Senior Nuclear Management Representative for AP&L. In order to implement this change I request that you address all future correspondence to Mr. Campbell so that he may direct the preparation of AP&L's responses. As the Senior Management Representative, Mr. Campbell will have the primary signature authority for all NRC matters which require the signature of a company officer.

Very truly yours,

John M. Griffin
