Dr. John Glenn
Materials Program - Section 2
United States Nuclear Regulatory
Commission - Region 1
631 Park Avenue
King of Prussia, PA 19400

Dear Dr. Glenn:

Please renew our License No. 29-07524-04 to use and process by-product material.

The program has not been modified with the exception of item 12. We would like to add Mr. J. F. Schlesier to the license to use and supervise the use of the licensed materials listed under items 7.D. and 7.E. of Amendment No. 5 of our current license.

Mr. Schlesier is Group Leader of the Analytical Chemistry Group of our Analytical Research Department. He has over 10 years of hands-on experience in gas chromatography and 5 years experience with Ni-63 and tritium sealed source detectors and is familiar with the safety regulations pertaining to these detectors.

A check for \$460.00 is enclosed to cover the renewal fee.

If there are any questions, please call me at (201) 688-9000, Ext. 251.

Thank you.
