Mr. James G. Keppler  
Regional Administrator  
Region III  
U. S. Nuclear Regulatory Commission  
799 Roosevelt Road  
Glen Ellyn, Illinois 60137

Dear Mr. Keppler:

- Reference: 1) Fermi 2  
NRC Docket No. 50-341  
NRC License No. NPF-43
- 2) IE Bulletin No. 86-02, "Static O Ring  
Differential Pressure Switches", dated  
July 18, 1986

Subject: Response to IE Bulletin 86-02

Reference 2 identified a concern with Series 102 and 103 differential pressure switches manufactured by Static "O" Ring Incorporated, and requested licensees to determine if switches of this type were in use in certain applications at their facilities. Detroit Edison has performed a thorough review and found no Series 102 or 103 Static "O" Ring differential pressure switches in use at Fermi 2. This completes Detroit Edison's response to this Bulletin.

Please direct any questions to Mr. Robert L. Woolley at (313) 586-4211.

Sincerely

cc: Mr. M. D. Lynch
