In the Matter of
GEORGIA POWER CO.
(Vogtle Electric Generating Plant, Units 1 and 2)
Docket Nos. 50-424 and 50-425 (OL)

Dear Administrative Judges:

Reference is made to the "NRC Staff Response Requesting a Deferral of and Permission to File an Additional Response to 'Applicants' Motion for Summary Disposition of Joint Intervenors Contention EP-5 (Reception Center Capacity)" filed on April 15, 1986. Staff asked in that Response that consideration of Applicants' motion for summary disposition on Contention EP-5 be deferred until the Federal Emergency Management Agency (FEMA) issues its evaluation of the April 30/May 1 exercise of the Vogtle Offsite Emergency Response Plan and that the Staff have 14 days after that evaluation is issued to file a further response to Applicants' motion. FEMA now advises Staff that it can make an evaluation of those matters raised in Contention EP-5 in time for the Staff to file a further response to Applicants' motion, including an Affidavit from FEMA, by May 20, 1986.

Sincerely,

Bernard M. Bordenick
