Subject: LICENSED OPERATOR TESTED POSITIVE FOR ALCOHOL

On March 26, 1993, the licensee reported that a licensed Senior Reactor Operator tested positive for alcohol during a routine medical examination. The individual had not been performing NRC-licensed duties, and, at the time of the alcohol test, was at the site only for the medical examination.

The operator has entered the licensee's employee assistance program. The Region III Operator Licensing staff will review the matter.

The State of Ohio will be notified. The information in this preliminary notification has been reviewed by licensee management.

The licensee notified Region III of the test results at about 9:30 a.m. on March 26, 1993. This information is current as of 2 p.m. on March 26, 1993.
