The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of the Power Authority of the State of New York (the licensee, also known as the New York Power Authority) to withdraw its February 6, 1998, application for proposed amendment to Facility Operating License No. DPR-59 for the James A. FitzPatrick Nuclear Power Plant, located in Oswego County, New York.

The proposed amendment would have revised Technical Specifications for inservice leak and hydrostatic testing operation.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the FEDERAL REGISTER on April 22, 1998 (63 FR 19976). However, by letter dated December 30, 1998, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated February 6, 1998, and the licensee's letter dated December 30, 1998, which withdrew the

application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Reference and Documents Department, Penfield Library, State University of New York, Oswego, New York 13126.
