Dear Mr. Berkow:

In your letter of July 7, 1986 (Reference 1), the Nuclear Regulatory Commission (NRC) requested that Public Service Company of Colorado (PSC) provide additional information on the Preventive Maintenance Program for the Control Rod Drive and Orifice Assemblies. A telephone conference was held with Mr. K. L. Heitner (NRC) on August 13, 1986, to clarify the level of detail requested (e.g., acceptance criteria for the inspections in the proposed Preventive Maintenance Program). Due to the amount of information involved and the level of detail requested, it was agreed that PSC will submit this information on or before September 19, 1986.
