PWR Projects Directorate No. 6  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Dear Mr. Stolz:

Three Mile Island Nuclear Station, Unit 1  
Operating License No. DPR-50  
Docket No. 50-289  
Update of Technical Specification Change Request No. 151

On July 29, 1986, GPU Nuclear (GPUN) submitted Technical Specification Change Request No. 151, letter number 5211-86-2081. Enclosed is a revised page 6-21 which should replace page 6-21 from the original request.

It was the intent of GPUN to revise the title of "Radiological Controls Foreman" to the "respective Radiological Controls Supervisor" as the person responsible for control of keys to high radiation areas. However, the original submittal referred to this person as the "Group Radiological Controls Supervisor." The enclosed page corrects this item.

The attached page with this revision should be supplemented for the original page 6-21 in all copies of Technical Specification Change Request No. 151.

Sincerely,

R. D. Hukill  
Vice President & Director, TMI-1
