

February 12, 1986

MEMORANDUM FOR: Ben B. Hayes, Director
Office of Investigations

FROM: Victor Stello, Jr.
Acting Executive Director
for Operations

SUBJECT: OI REPORT ON DETROIT EDISON COMPANY (FERMI)

You mentioned to me Monday that completed OI reports are provided to OGC for its review of OI proposed referrals to DOJ, and that OI awaits completion of such review before providing the reports to the staff. This could result in significant delay before the staff receives information requiring regulatory action. The August 14, 1985 memorandum establishing this review does not address the distribution of the reports. Thus, in the future, I would appreciate receiving copies of the completed report at the time you send to OGC. If you believe such a course of action requires Commission approval or is not acceptable to you, please notify me so that approval of the Commission can be obtained.

In addition, I require a copy of the draft OI report on Fermi with the OIA report, if available, with which it is interrelated in order to determine if there is a safety issue that needs to be addressed by the staff. I will treat it with appropriate confidentiality.
