

THE UNIVERSITY OF MARYLAND

COLLEGE PARK CAMPUS  
Department of Chemical and Nuclear Engineering  
August 26, 1986

Mr. Bob Carter  
Office of Nuclear Reactor Regulations  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Carter

Re: License No. R-70; Docket No. 50-166

I request that the Technical Specifications for the Maryland University Training Reactor (MUTR) be amended to reflect recent changes in the University administrative organizational structure. This change will be Amendment # 8. The reason for these changes are because the position of Provost, Division of Mathematical and Physical Sciences and Engineering has been eliminated. The Dean, College of Engineering, is now the top level administrator for the MUTR Organizational Structure. The organizational change will have no impact on the normal and emergency operations of the MUTR facility. A summary of the changes and the amended pages are attached. The NRC Region I Administrator has already received copies of the revised figures but not the revisions to the text. Please note that I am also enclosing copies of these changes for you to forward to NRC Documents Control.

In addition, for the sake of speed and efficiency, I would like to request that all future correspondence from the NRC to the MUTR Facility be address to the Chairman, Department of Chemical and Nuclear Engineering, The University of Maryland, College Park, Maryland 20742.

Sincerely yours,

*Marvin L. Roush*

Marvin L. Roush  
Chairman,  
Dept. of Chemical & Nuclear Eng.
