Docket No. 50-461

Mr. Frank A. Spangenberg
Manager-Licensing and Safety
Clinton Power Station
P.O. Box 678
Mail Code V920
Clinton, Illinois 61727

Dear Mr. Spangenberg:

SUBJECT: CHANGES TO FINAL DRAFT TECHNICAL SPECIFICATIONS FOR CLINTON POWER STATION, UNIT 1

By letter dated June 18, 1986, we sent you a copy of the final draft Technical Specifications, and by letter dated August 21, 1986, we sent you a number of changes to the final draft Technical Specifications that were based on resolutions to the staff's and Illinois Power Company's (IP) comments.

Since the August 21, 1986 letter, the staff has reviewed certain additional proposed changes to the Technical Specifications docketed by IP. These changes have been incorporated into the final draft Technical Specifications.

You are requested to review these changes and certify that the Clinton Technical Specifications, as modified by the enclosed pages, are consistent with the Clinton FSAR, the staff SER and supplements thereto, and the as-built facility. You should provide your certification at least several days prior to your proposed low power licensing date.

Sincerely,

Original Signed by

Walter R. Butler, Director
BWR Project Directorate No. 4
Division of BWR Licensing
