January 14, 1985

Mr. John L. Patten
Director
Pennsylvania Emergency Management Agency
P. O. Box 3321
Harrisburg, PA 17105

Dear Mr. Patten:

As you are aware, the Pennsylvania Emergency Management Agency is currently reviewing recent drafts of the Offsite Radiological Emergency Response Plans for Limerick in order to certify those plans to the Federal Emergency Management Agency for its review. Those drafts have been, as you may know, received into evidence by the Atomic Safety and Licensing Board in the Limerick licensing proceeding before the Nuclear Regulatory Commission.

In order to facilitate your review and provide the most current information, I am enclosing two copies of page substitutions to certain plan drafts which contain updated staffing figures.

Please feel free to call me if you have any questions.

Sincerely,

V.S. Boyer
