FROM: Gary L. Snyder, Assistant to Director

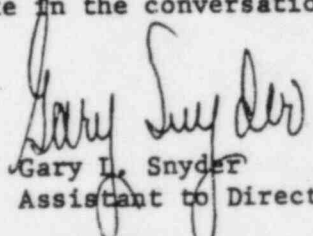

SUBJECT: PRE-HEARING CONFERENCE

Jim Lieberman, Office of the Executive Legal Director, called me on May 27 to tell me that the Pre-Hearing Conference with Radiation Technology is scheduled for June 15 in Newark, New Jersey. He did not know the address nor the time of the Hearing, but will pass this information on to me next week. He requested that we be prepared to attend the Pre-Hearing Conference. He stated that no evidence will be presented, but that Judge Jensch often asks technical questions. Subsequent to this call I discussed the matter with Bob McClintock and told him that he and I should be prepared to attend the Pre-Hearing Conference, with the possibility that Dr. Glenn may participate then or in the future.

Lieberman indicated that sometime next week he would call and discuss the issues on a technical basis. He indicated that he was having difficulty getting a clear picture of the basis on which Dr. Welt was challenging the validity of the civil penalty. I told him that when he called I would arrange to have Bob McClintock and any other necessary personnel available to participate in the conversation.

Lieberman indicated that sometime next week he would call and discuss the issues on a technical basis. He indicated that he was having difficulty getting a clear picture of the basis on which Dr. Walt was challenging the validity of the civil penalty. I told him that when he called I would arrange to have Bob McClintock and any other necessary personnel available to participate in the conversation.
