SUBJECT: NRC Material License No. 24-24576-01
Mail Control Number 618441 - Request for additional information

Dear Mr. Kelly,

This letter is in response to Mail Control Number 618441 request for the following additional information:

1. Appendix E, “Information needed for Transfer of Control Application,” of the guidance states that both the transferor and transferee must agree to transferring control of the licensed material and activity and the conditions of transfer.

Please submit documentation signed by management representatives of both the transferor and the transferee affirming agreement to the transfer of control and the conditions of the transfer.

Response: See Attachment 1 for documentation signed by management representatives of both the transferor and the transferee affirming agreement to the transfer of control and the conditions of the transfer.

2. Section 5.1, “Description of the Transaction,” of the guidance specifies that the licensee should include a pre- and post-transaction organizational chart showing the corporate structure of the license holder and its parent companies, if any.

Your request did not include an organization chart. Therefore, with your response, please include a pre- and post-organizational chart showing the corporate structure of the license holder and its parent companies, if any. Also, clearly identify the reporting relationship of the appointed Radiation Safety Officer to management.

Response: See Attachment 2 for documentation which includes a pre- and post-transaction organizational chart showing the corporate structure of the license holder and its parent companies and clearly identifies the reporting relationship of the appointed Radiation Safety Officer to management.

Thank you for your assistance in this matter. If you have any questions, please do not hesitate to contact Beverly Deistler via email at bmdeistler@olin.com or at 662-701-0042.

Sincerely,

Steven R. Goldschmidt
