Re: Turkey Point Units 3 and 4  
Docket Nos. 250, 251  
PHYSICAL SECURITY PLAN CHANGE

In accordance with 10CFR 50.54 (p) (1) and 10 CFR 50.90, Florida Power and Light Company (FPL) requests to amend the Turkey Point Physical Security Plan (PSP) to modify the requirement to post security officers to provide continuous observation of the entire Protected Area (PA) perimeter in the event of a security computer failure. In addition, FPL is requesting a PSP change that will allow for the Security Force staffing level to go below the minimum number required, due to injury, illness, or family emergencies, etc, for a period of up to three (3) hours.

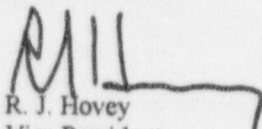

FPL has determined that the proposed plan changes do not involve a significant hazards consideration pursuant to 10 CFR 50.92. A description of the change request is provided in Attachment 1. The no significant hazards determination in support of the proposed plan changes are provided in Attachment 2. Attachment 3 provides the proposed revised PSP pages.

In accordance with 10 CFR 50.91 (b) (1), a copy of this proposed license amendment is being forwarded to the State Designee for the State of Florida.

The proposed PSP plan changes have been reviewed by the Turkey Point Plant Nuclear Safety Committee and the FPL Company Nuclear Review Board, and will be implemented within 60 days of receipt of NRC approval.

Should there be any questions on this request, please contact us?

Very truly yours,

  
R. J. Hovey  
Vice President  
Turkey Point Plant
